We'll pay special attention to fiscal systems and taxation as an instrument of distribution. During the first part of the semester we are going to make common readings which will provide students with conceptual tools and help them formulate own research agendas and questions as to Ottoman/Turkish history and contemporary society. Students are expected to carry out one small research project and an in-class book report, both should be related to the general issues that we will be discussing throughout the first part of the semester. Research topics and books for report may be on historical issues, as well as on contemporary social problems.
